California Notice 2018-09

NOTICE OF AVAILABILITY OF PROBLEM FORMULATION DOCUMENT FOR THE ACTIVE INGREDIENTS **CYFLUTHRIN AND BETA-CYFLUTHRIN**

In January 2018, the Department of Pesticide Regulation (DPR) announced it was initiating a human health risk assessment for the active ingredients cyfluthrin and beta-cyfluthrin. This notice informs stakeholders that DPR recently completed a problem formulation document for the active ingredients cyfluthrin and beta-cyfluthrin. The problem formulation document provides the anticipated scope of the human health risk assessment, potential exposure scenarios, and future mitigation activities that DPR may propose for registered pesticide products containing the active ingredients cyfluthrin and beta-cyfluthrin. The problem formulation document is available on DPR's Web site at http://www.cdpr.ca.gov/docs/whs/pdf/cyfluthrin_problem_formulation.pdf.

If you have comments relevant to the problem formulation document, please submit them to DPR within sixty (60) days from the date of this notice. Please address all submissions to:

Risk Assessment – (Cyfluthrin and Beta-Cyfluthrin)
Attn: Risk Assessment Coordinator
Pesticide Registration Branch
Department of Pesticide Regulation
1001 I Street, P.O. Box 4015
Sacramento, CA 95812-4015

DPR will review comments and, where appropriate, will incorporate technical suggestions into the text of the draft risk characterization document. Documents pertaining to the human health risk assessment for cyfluthrin and beta-cyfluthrin will be available at http://www.cdpr.ca.gov/docs/whs/active_ingredient/cyfluthrin.htm.

If you have questions about this notice, please contact Ann Hanger, Senior Environmental Scientist (Supervisory), at Ann.Hanger@cdpr.ca.gov or by telephone at 916-324-3535.
