

## ATTACHMENT # 8

# PERMISSION FOR THE METHYL BROMIDE BUFFER TO EXTEND ONTO ADJOINING PROPERTY

### INNER BUFFER ZONE

THE INNER BUFFER ZONE CAN ONLY EXTEND INTO ADJOINING  
PROPERTY IF THE ADJOINING PROPERTY IS AGRICULTURAL

I give my permission for the INNER buffer zone of \_\_\_\_\_ 's (fumigating permittee) fumigation to extend onto my property. I will allow him/her to post signs on my property at the boundary of the inner buffer zone. I will be responsible for assuring that no one is allowed in the inner buffer zone which is on my property, except to transit. I understand that the operator of the property to be fumigated will notify me, at least 48 hours before the fumigation, of the specific date and time of the start of the fumigation and the anticipated expiration of the buffer zone. I will notify any employees who are working on the site that a buffer zone has been established on the property, and will inform them of the specific date and time of the start of the fumigation and the anticipated expiration of the buffer zone. I understand that this includes my employees, employees of a licensed pest control businesses, and employees of farm labor contractors. I understand that the notification to a farm labor contractor's employees can be done by giving a written notice to the farm labor contractor who must then give the notice to the employees, and that the operator of the property to be fumigated can provide me with this written notice, but it is my obligation to inform the operator of the property to be fumigated that I will need the notification in writing. I will provide this notice before the employees begin work activity on the property where a buffer zone has been established.

I have read and understand these requirements, and agree to comply with them.
