

6000. Definitions., continued

“Sensitive aquatic site” means any irrigation or drainage ditch, canal, or other body of water in which the presence of dormant insecticides could adversely impact any of the beneficial uses of the waters of the state specified in Water Code section 13050(f).

“Site specific” means a pesticide permit that identifies the specific area to be treated, the size of that area, and the commodity(ies) or site(s) on that area to be treated.

“Solicits services or sales”, as used in section 11410 of the Food and Agricultural Code, means sells, or offers for sale, any pesticide, method, or device outside of a fixed place of business.

“Structural use” means a use requiring a license under Chapter 14 (commencing with section 8500), Division 3 of the Business and Professions Code.

“Study director” means the individual responsible for the overall conduct of a research project.

“Substantial drift” means the quantity of pesticide outside of the area treated is greater than that which would have resulted had the applicator used due care. This definition is applicable to section 12972 of the Food and Agricultural Code and section 6614 of Title 3, California Code of Regulations.

6000. Definitions., continued

“**Time specific**” means a pesticide permit that specifies the date the intended application is to commence or permit with a notice of intent requirement. The pesticide use may commence within four days following such date if delays are caused by uncontrollable conditions such as adverse weather or unavailability of equipment. The commissioner shall require a notice of intent from either the grower, the grower's authorized representative, or the pest control business when necessary to make the permit time and site specific.

“**Treated field**” means a field that has been treated with a pesticide or had a restricted entry interval in effect within the last 30 days. A treated field includes associated roads, paths, ditches, borders, and headlands, if the pesticide was also directed to those areas. A treated field does not include areas inadvertently contaminated by drift or over spray.
