

# Appendix C

## Department of Pesticide Regulation Recommended Permit Conditions

---

**Introduction**

This Appendix contains Department of Pesticide Regulation recommended permit conditions for various restricted material pesticides.

---

**Topics discussed**

This Appendix contains discussions on the following topics:

<b>Section / Topic</b>	<b>See page...</b>
C.1--General Drift Minimization	C-2
C.2--Rice Pesticides	C-4
C.3--Ground Water Protection Approved Alternative Management Practices	C-27
C.4--Carbofuran (Furadan)	C-28
C.5--Tribufos (DEF, Folex)	C-29
C.6--Commodity Fumigation <ul style="list-style-type: none"><li>• 6.1 – Methyl Bromide and Sulfuryl Fluoride</li><li>• 6.2 – Tarped Potting Soil Fumigation</li></ul>	C-30
C.7--Soil Fumigations <ul style="list-style-type: none"><li>• C.7.1 – 1,3-Dichloropropene (1,3-D)</li><li>• C.7.2 – Metam Sodium, Metam Potassium, and Dazomet Field Soil Fumigations<ol style="list-style-type: none"><li>1. Dazomet Field Soil Fumigation Recommended Permit Conditions</li><li>2. Metam Sodium and Metam Potassium Field Soil Fumigation Recommended Permit Conditions for Drench Applications</li><li>3. Metam Sodium and Metam Potassium Field Soil Fumigation Recommended Permit Conditions for Drip Applications</li><li>4. Metam Sodium and Metam Potassium Field Soil Fumigation Recommended Permit Conditions for Flood Applications</li></ol></li></ul>	C-106 C-116 <sup>1</sup>

# Department of Pesticide Regulation Recommended Permit Conditions, Continued

Topics discussed (continued)

Section / Topic	See page...
<p>C.7--Soil Fumigations (continued)</p> <ul style="list-style-type: none"> <li>• C.7.2 – Metam Sodium, Metam Potassium, and Dazomet Field Soil Fumigations (continued)               <ol style="list-style-type: none"> <li>5. Metam Sodium and Metam Potassium Field Soil Fumigation Recommended Permit Conditions for Power Mulcher and Rotary Tiller (Rototiller) Applications</li> <li>6. Metam Sodium and Metam Potassium Field Soil Fumigation Recommended Permit Conditions for Rod Bar Applications</li> <li>7. Metam Sodium and Metam Potassium Field Soil Fumigation Recommended Permit Conditions for Shank Applications</li> <li>8. Metam Sodium and Metam Potassium Field Soil Fumigation Recommended Permit Conditions for Spray Blade with Soil Cap Applications</li> <li>9. Metam Sodium and Metam Potassium Field Soil Fumigation Recommended Permit Conditions for Sprinkler Applications</li> </ol> </li> <li>• C.7.3 – Methyl Bromide               <ul style="list-style-type: none"> <li>○ 7.3.1 – Soil Fumigation Within A Greenhouse</li> <li>○ 7.3.2 – Methyl Bromide Field Fumigation Recommended Permit Conditions</li> </ul> </li> <li>• C.7.4 – Chloropicrin and Chloropicrin with 1,3-D (Fumigant) Recommended Permit Conditions</li> </ul>	<p>C-123<sup>2</sup></p> <p>C-139</p> <p>C-147</p>
<p>C.8--Aluminum and Magnesium Phosphide for Burrowing Rodent Control</p>	<p>C-149</p>

<sup>2</sup> Section 7.3 Methyl Bromide page numbers will be updated at a later date.
