PML 07-05

TO: County Agricultural Commissioners

SUBJECT: ADDITIONAL COMMODITIES FOR THE PERMIT AND PESTICIDE USE REPORTING PROGRAMS

Background

It has been two years since the Department of Pesticide Regulation (DPR) added additional commodities to the permit and pesticide use reporting (PUR) programs. DPR is currently requesting that county staff submit to DPR a list of commodities they would like added to the approved list for the permit and PUR programs.

Information needed

Please provide a brief explanation why the new commodity does not fit into one of the existing commodity codes. The additional commodities should also be ones that represent substantial acreage planted and are listed on product labels. We will review the requests and assess any impact to existing DPR databases.

Submitting requests

Please submit your suggestions by September 15, 2007, to Linda Lichtenberger at <llichtenberger@cdpr.ca.gov> or 1001 I Street, 3rd Floor, Sacramento, California 95814-2828. Our goal is to have an updated list of commodity codes available for the 2008 permitting year.
