Status of Chlorpyrifos and Diazinon Reevaluations

Denise Webster
Pesticide Registration Branch
January 16, 2009
Presentation Outline

The chemical companies are surveying waters in California to determine whether or not current mitigation measures are effective in reducing exceedances of water quality objectives.

1. Background on both active ingredients.
2. Current mitigation measures in place.
3. Monitoring data current and pending.
Background

Diazinon
First Registered 1956

Reevaluation
Initiated February 2003

Chlorpyrifos
First Registered 1965

Reevaluation
Initiated March 2004
Mitigation Measures Timeline

**Diazinon**
- California Specific Supplemental Labeling
- U.S. EPA Restrictions Dec. 2004
- Dormant Spray Regs August 2006

**Chlorpyrifos**
- U.S. EPA - MOA Begin Phase Out 2000 - 2004
- Mitigation Measures on Labels 2006
Monitoring Data
Current and Pending

Diazinon
- Proposals 2004
- Reports 2006-07
- Additional Investigations May 2007
- Statewide Survey 2008

Chlorpyrifos
- Proposal 2006
- Report 2008
- Statewide Survey 2009
Questions?

- Semiannual report from January through the end of June 2008 is available on DPR’s California Notices to Registrants Web page under the “2008-07” hyperlink.
