

**GWSS Environmental Monitoring
Meeting Notes
Environmental Hazards
Assessment Program
Environmental Monitoring Branch
Department of Pesticide
Regulation
PO Box 4015, Sacramento, CA
95812**

Meeting Date: February 15, 2001; 4-6 p.m.

Venue: Chapman Elementary School, Chico.

Aurelio Posadas (center face) and Richard Price (center back), Butte Co. Ag. Commissioner discuss with meeting participants.

Purpose: Participate and present monitoring results at the Public Information Meeting on the glassy-winged sharpshooter control.

Attendees: about 20 members of the public, growers, TV station, press and State officials included Butte County Ag. Comm., CDFG, CalTrans, and DPR.

Highlights:

- 1) Richard Price (Ag. Comm.) discussed detection of a GWSS in a previously treated area and outlined upcoming treatment options for Chico.
- 2) He mentioned that treatment materials may include carbaryl, imidacloprid, or cyfluthrin and treatment date has not been finalized.
- 3) Kean Goh and Johanna Walters made a slides presented of DPR's monitoring results from the November 2000 carbaryl application. The entire Power Point® presentation will be available in two weeks at www.cdpr.ca.gov/docs/gwss
