PRECAUTIONARY STATEMENTS

Hazard statements: This product contains methyl bromide and chloropicrin. Early symptoms of overexposure are dizziness, headache, nausea and vomiting, weakness and collapse. Lung edema may develop in 2 to 48 hours. Early symptoms may occur, but the final effects are not clear because of the toxic properties of this product. If you suspect overexposure, contact medical assistance immediately.

DIRECTIONS FOR USE

This product is intended for retail sale to and use by Certified Applicators. It is not for retail sale to the public or for use by uncertified persons.

Agricultural Use Restrictions

This pesticide is toxic to mammals and birds. Do not apply directly to water, or to areas from which surface water is abstracted or to intertidal areas below the mean high water mark unless the water is to be used after it has been allowed to return to natural conditions or is returned to the prior use after it has been treated to acceptable levels. Do not contaminate water, food, or feed by storage or disposal.

Disposal of Occupied Screens, Equipment and Unused Chemicals

To the extent consistent with applicable law, Seller’s liability for consequential damages. SELLER MAKES NO OTHER WARRANTIES; AND DISCLAIMS ALL OTHER EXPRESS OR IMPLIED WARRANTIES, INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE. To the extent permitted by applicable law, Seller shall not be liable for any costs, damages, losses, or expenses, including without limitation, costs of property damage, personal injury or death, of any nature, or any claimed general, special, incidental, or consequential damages, however caused, unless specifically required by law. Seller’s liability is limited to the value of goods or services involved in the transaction giving rise to the loss, damage or injury.

Spill and Leak Procedures for Soil Fumigation

This pesticide contains methyl bromide and chloropicrin. Do not apply directly to water, or to areas from which surface water is abstracted or to intertidal areas below the mean high water mark unless the water is to be used after it has been allowed to return to natural conditions or is returned to the prior use after it has been treated to acceptable levels.
PRECAUTIONARY STATEMENTS

Hazard to all animals. Do not apply to fields, pastures, or meadows in which livestock are present, or to areas used for drinking water for animals. Do not apply to areas containing aquatic life or to areas used by fish. Do not spray livestock or animals, or directly contaminate food, water, or feed. Do not contaminate water sources, other food or feed or equipment used in food producing operations. Do not contaminate aquatic habitats, surface waters, wells, or other water supplies. Do not contaminate vegetation where surface water is present or to intertidal areas below the mean high water mark. Use only in accordance with all Federal, State, and local regulations. Remove all personal protective equipment as directed. 

FUNCTIONS FOR DIRECTIONS FOR USE Restricted Use Pesticide

It is a violation of Federal law to use this product in a manner inconsistent with the directions on its label. 

Agricultural Use Requirements

The product is sold as an agricultural pesticide and is intended for use by growers of field and horticultural crops. 

STORAGE, HANDLING, AND DISPOSAL

Do not apply to areas that may subsequently be used as recreational areas, wildlife habitats, or wetlands. Do not apply in a manner that will result in the drift or pollution of water bodies, wetlands, wildlife refuges, national parks, federal waters, or federally-designated sensitive areas. Do not contaminate water supplies or other food or feed or equipment used in food producing operations. Do not contaminate vegetation where surface water is present or to intertidal areas below the mean high water mark. Use only in accordance with all Federal, State, and local regulations.removed all personal protective equipment as directed. 

ENVIRONMENTAL HAZARDS

This pesticide is toxic to livestock and birds. Do not apply directly to water or to areas from which run-off might enter surface or ground waters. Use only as directed. Do not contaminate water sources, other food or feed, or equipment used in food producing operations. Do not contaminate vegetation where surface water is present or to intertidal areas below the mean high water mark. Use only in accordance with all Federal, State, and local regulations. 

ENVIRONMENTAL HAZARDS

This pesticide is toxic to livestock and birds. Do not apply directly to water or to areas from which run-off might enter surface or ground waters. Use only as directed. Do not contaminate water sources, other food or feed, or equipment used in food producing operations. Do not contaminate vegetation where surface water is present or to intertidal areas below the mean high water mark. Use only in accordance with all Federal, State, and local regulations.
If inhaled

If on skin

If swallowed

If in contact with eyes

Ingestion of methyl bromide and chloropicrin by the mouth can cause swallowing difficulties, choking or partial asphyxiation. Methyl bromide and chloropicrin have certain properties and characteristics in common with chemicals that have been detected in groundwater (methyl bromide and chloropicrin are heavier than air and are highly soluble in water and have low adsorption to soil). Methyl bromide and chloropicrin are toxic to mammals and birds. Do not apply directly to water or to areas where water may collect. For untarped applications of methyl bromide and chloropicrin, leaching and runoff may occur. Do not contaminate water, food, or feed by storage or disposal. Do not contaminate water, food, or feed by storage or disposal. Methyl bromide is listed as a known carcinogen by the Environmental Protection Agency. Chloropicrin is also a known carcinogen by the National Toxicology Program. **WARNING:** Contains methyl bromide, a substance that causes respiratory and other health problems when breathed in.

**EMERGENCY RESPONSE INFORMATION**

**EMERGENCY PHONE NUMBER:** 1-800-822-2847

**EMERGENCY RESPONSE TEAM:** Great Lakes Chemical Corporation

**REGIONAL CONTROL AGENCY:** United States Environmental Protection Agency - Great Lakes Branch

**ADDENDUM:** Special handling, storage, and disposal procedures may apply.

**STORAGE, HANDLING, AND DISPOSAL**

**STORAGE:** Store in a secure manner either outdoors under ambient conditions or indoors in a well ventilated area. For a portable storage area, use cylinders maintained in good condition. Storing containers away from reach of children is critical. Wear protective gloves, apron, and shoes when handling this pesticide or persons who have handled it. Avoid prolonged exposure to fumes. Keep container closed when not in use. All personnel must wash hands and other exposed skin areas after handling.

**HANDLING:** Use only with proper respiratory protection. Wear suitable protective clothing in order to minimize exposure to skin and eyes. Use a properly fitted respirator with a minimum of N95 respiratory cartridge. Do not remove protective equipment until hazardous fumes are no longer detectable. Follow the respiratory protection section of the directions for use. Use personal protective equipment (PPE) recommended for the task. Discontinue exposure immediately when symptoms of respiratory irritation are observed. When the pesticide is not in use, keep it in its container. When applying the pesticide, wear the following approved personal protective equipment:

- Chemical-resistant apron, \( \geq 0.5 \) mils
- Chemical-resistant gloves, \( \geq 0.5 \) mils
- Long-sleeved shirt and long pants
- Rubber boots when handling. Methyl bromide and chloropicrin are heavier than air and can be trapped inside clothing and cause skin injury.

**DISPOSAL:** Do not reuse container. Store in a secure manner until transported to the nearest EPA-regulated disposal site. Secure container in metal drum or tank. Contact local waste management facility or a state or local hazardous waste management facility for disposal options. Do not dispose of in the trash. This pesticide is a mixed fumigant, containing both methyl bromide and chloropicrin.

**SPILL AND LEAK PROCEDURES FOR SOLID FUMIGATION**

In case of a rupture of hose or fitting, immediately stop tractor or other powered equipment. Do not use water to flush spill. If water solutions are not utilized, spill may be contained by suitable sorbents or by burying the spilled material. Do not contaminate water bodies with this material. Do not incinerate this product. Do not dispose of contents or container in a sanitary landfill. In case of a rupture of hose or fitting, immediately stop tractor or other powered equipment. Do not use water to flush spill. If water solutions are not utilized, spill may be contained by suitable sorbents or by burying the spilled material. Do not contaminate water bodies with this material. Do not incinerate this product.

**SPECIAL STORAGE INSTRUCTIONS**

**Additional Storage, Handling, and Disposal Information:**

- Store in a secure manner either outdoors under ambient conditions or indoors in a well ventilated area. For a portable storage area, use cylinders maintained in good condition. Storing containers away from reach of children is critical. Wear protective gloves, apron, and shoes when handling this pesticide or persons who have handled it. Avoid prolonged exposure to fumes. Keep container closed when not in use. All personnel must wash hands and other exposed skin areas after handling.

- Use only with proper respiratory protection. Wear suitable protective clothing in order to minimize exposure to skin and eyes. Use a properly fitted respirator with a minimum of N95 respiratory cartridge. Do not remove protective equipment until hazardous fumes are no longer detectable. Follow the respiratory protection section of the directions for use. Use personal protective equipment (PPE) recommended for the task. Discontinue exposure immediately when symptoms of respiratory irritation are observed. When the pesticide is not in use, keep it in its container. When applying the pesticide, wear the following approved personal protective equipment:

- Chemical-resistant apron, \( \geq 0.5 \) mils
- Chemical-resistant gloves, \( \geq 0.5 \) mils
- Long-sleeved shirt and long pants
- Rubber boots when handling. Methyl bromide and chloropicrin are heavier than air and can be trapped inside clothing and cause skin injury.

**NOTICE TO PHYSICIAN**

Every employee of an employer using methyl bromide, including the physician or other authorized health care provider, who renders medical or surgical care to any person exposed to methyl bromide in this pesticide or to a person who has handled it, may request that the physician or other authorized health care provider, who renders medical or surgical care shall disclose to the employee or the employee’s physician who renders medical or surgical care to any person exposed to methyl bromide in this pesticide or to a person who has handled it, and the employee’s physician who renders medical or surgical care shall disclose to the employee or the employee’s physician, any information with respect to the render employee’s use of methyl bromide which is relevant to the health of the employee or of the person exposed to methyl bromide in this pesticide or to a person who has handled it. A person who renders medical or surgical care to any person exposed to methyl bromide in this pesticide or to a person who has handled it may request the employee or the employee’s physician who renders medical or surgical care to any person exposed to methyl bromide in this pesticide or to a person who has handled it, to disclose to the person who renders medical or surgical care, any information with respect to the employee’s use of methyl bromide which is relevant to the health of the employee or of the person exposed to methyl bromide in this pesticide or to a person who has handled it.

**ENVIRONMENTAL HAZARDS**

This pesticide is toxic to livestock and birds. Do not apply directly to water, or to areas from which surface water may be derived. Do not contaminate water, food, or feed by storage or disposal. Do not contaminate water by applying fertilizer or sewage sludge. Do not dispose of materials in private sewage treatment systems. Do not store in or near potable water sources, or in or near areas supplying drinking water. Do not store near or around hospitals, clinics, recreation areas, or parks. Do not contaminate water, food, or feed by storage or disposal. Do not contaminate water by applying fertilizer or sewage sludge. Do not dispose of materials in private sewage treatment systems. Do not store in or near potable water sources, or in or near areas supplying drinking water. Do not store near or around hospitals, clinics, recreation areas, or parks.

**LIMITED USE CERTIFICATION**

This pesticide is a restricted use pesticide and is available only from a certified Limited Use Certified Dealer (LUCD). The LUCD must be authorized by the states to distribute this pesticide. Only the LUCD may sell this pesticide to a Certified applicator. LUCDs must be certified by the states as required. Use only on lands under the direct control of the farmer or grower.

**EPA REGISTRATION NO. 5785-42**

SEE SIDE PANEL FOR ADDITIONAL INFORMATION.
For most safe and easy to use by Certified Applicators or persons under their direct supervision, and only for those states covered by the Certified Applicator’s coverage.

BROM-O-GAS® 2% SOIL FUMIGANT

This product yields 24 pounds per acre.

PELIGRO - DANGER - POISON
KEEP OUT OF REACH OF CHILDREN

PRESERVATION, CLOTHING AND SHOES

• Wash hands before eating, drinking, chewing gum, using tobacco, or handling food.
• Remove shoes and outdoors clothing before entering the greenhouse.
• Before leaving the greenhouse, remove work clothing, shoes, and gloves.
• Wash hands before re-entering the greenhouse.
• Change outdoor clothing and shoes before re-entering the greenhouse.

RESTRICTED USE PESTICIDE

DUE TO ACUTE TOXICITY

For sale only to use by Certified Applicators or persons under their direct supervision, and only for those crops covered by the Certified Applicator's certification.

BROM-O-GAS® 2% SOIL FUMIGANT

ACTIVE INGREDIENT

Di-2-propyl-4-thiophosgene

Do not apply this product in a way that will contact workers or other persons. Do not allow this product to enter stores water (e.g., surface or ground waters), sewers, or drains. To prevent injury to persons, keep away from populated areas and traffic during and after use. Do not contaminate water, food, or feed by storage or disposal. Do not store feed or water containers in the area where they can contact this product or where it can enter stores by water supply lines. Do not contaminate food or feed by direct application to the food or feed or by permitting it to come into contact with food or feed areas.

DIRECTIONS FOR USE

NOTICE: Read this booklet and the entire label carefully prior to use of product. Use this product only according to label directions.

Use only as directed on the label. Approval for use of this product is conditioned upon proper application and management. If application rates specified on label are followed, the intended use of the product is consistent with the registration for which the product is registered.

HOT LINE NUMBER

1-800-858-7333

WARNING

DANGERS TO HUMANS AND DOMESTIC ANIMALS

Do not apply this product in such a manner that application materials are not deposited on the target pest. Do not contaminate water, food, or feed by storage or disposal. Do not store feed or water containers in the area where they can contact this product or where it can enter stores by water supply lines. Do not store feed or water containers in the area where they can contact this product or where it can enter stores by water supply lines. Do not apply to lands that drain into public bodies of water or that have a drainage to a public water supply source.

Some users may be required to prepare and follow a fumigation work plan that complies with the WPS. Applicators and handlers must be trained in the use of required respiratory equipment and farm machinery. Other training standards set forth in the WPS must be followed, including the proper use of PPE and emergency response equipment. The WPS also requires that the applicator determine the level of protection required and take the necessary protective measures to protect the applicator and workers.

USER SAFETY RECOMMENDATIONS

PERSONNEL SAFETY

Avoid skin contact with this product. Wear protective clothing as recommended on the label. Remove PPE immediately after handling this product. As soon as possible, wash hands and exposed skin with soap and water. Wash contaminated clothing before reuse.

If the product contacts the eyes, immediately rinse vigorously with plenty of water for 15 minutes. If irritation occurs, seek medical attention. If this product is ingested, do not induce vomiting unless directed to do so by medical personnel. Do not give anything by mouth to an unconscious person. If not unconscious, rinse mouth out with water.

SUSPECTED EXPOSURE

If you think you have been exposed to this product, seek medical attention immediately. Follow the instructions on the label for correct medical treatment.

In an emergency, call the Poison Control Center at 1-800-858-7333.

In case of a spill, wash the area down with water from a garden hose to prevent vapor inhalation. Keep the area ventilated.

NOTICE: A call to the Poison Control Center will automatically route your call to the nearest poison control center.

USER SAFETY REQUIREMENTS

NATIONAL OSHA

Warning: This product is extremely toxic. Prompt medical attention must be secured for anyone who inhales the product or who comes into contact with it. This product is an occupational hazard to farmers and ranchers. Use this product only according to label directions.

Supplemental Label # GLK374G

December 2008

HOT LINE NUMBER

This product is only permitted to those who are Certified Applicators or who are performing this activity under the supervision of a Certified Applicator.

FUMIGANT TREATED AREA KEEP OUT OF REACH OF CHILDREN

To prevent injury to persons, keep away from populated areas and traffic during and after use. Do not contaminate water, food, or feed by storage or disposal. Do not store feed or water containers in the area where they can contact this product or where it can enter stores by water supply lines. Do not store feed or water containers in the area where they can contact this product or where it can enter stores by water supply lines. Do not apply to lands that drain into public bodies of water or that have a drainage to a public water supply source.

Toxic in young animals. Pneumonitis may occur in young animals that eat fumigated grain. 

Post the Fumigant Treated Area sign instead of the WPS sign for this application. 

PROTECTIVE EQUIPMENT

Protective clothing and equipment are required for routine handler tasks. Wear an SCBA and PPE required for liquid fumigant. When fumigating soil from a tractor, 5 gallons of water must be carried in the tank to ensure proper dilution of the fumigant. This water must be delivered to the tractor's point of application where the fumigant is released. This water contains a chemical that may interfere with the fumigation. Ensure that all fumigants are applied at the label rate of 2% bromoethane. Once this product is applied, do not enter the treated area until all fumigant potential in emergencies such as a spill or leak or when corrective action is necessary for routine handler tasks. 

When using respiratory protection, ensure the respirator facepiece is free of leaks. 

Personal protective equipment for agricultural and medical personnel, including respiratory protection, is available for this product. 

If tarps will not be removed before planting, planting or transplanting must be delayed for 10 days after application. 

To prevent injury to persons, keep away from populated areas and traffic during and after use. Do not contaminate water, food, or feed by storage or disposal. Do not store feed or water containers in the area where they can contact this product or where it can enter stores by water supply lines. Do not apply to lands that drain into public bodies of water or that have a drainage to a public water supply source.

This product is intended for use in agricultural and related activities such as fumigation, soil fumigation, soil treatment, field and pasture fumigation, and fumigation in plant nurseries. 

FUMIGANT TREATED AREA KEEP OUT OF REACH OF CHILDREN

To prevent injury to persons, keep away from populated areas and traffic during and after use. Do not contaminate water, food, or feed by storage or disposal. Do not store feed or water containers in the area where they can contact this product or where it can enter stores by water supply lines. Do not apply to lands that drain into public bodies of water or that have a drainage to a public water supply source.

This product is intended for use in agricultural and related activities such as fumigation, soil fumigation, soil treatment, field and pasture fumigation, and fumigation in plant nurseries.
