Mary-Ann Warmerdam  
Director

## MEMORANDUM

Arnold Schwarzenegger  
Governor

TO: Doug Okumura  
Assistant Director

  
FROM: Paul H. Gosselin  
Chief Deputy Director  
(916) 445-4000

DATE: July 21, 2005

SUBJECT: RISK MANAGEMENT DIRECTIVE FOR TRIBUFOS

Department of Pesticide Regulation staff have completed revision number one of the risk characterization document for tribufos. In this revision, staff identified unacceptable seasonal and oncogenic risks for certain occupational practices. For the time being, I would like staff to track the progress of the U.S. Environmental Protection Agency's (U.S. EPA's) proposal to increase the reentry intervals and other mitigation measures. If at the completion of U.S. EPA's actions there remains unacceptable seasonal and oncogenic risk, please direct staff to prepare potential mitigation options for management review covering occupational exposures, as well as specifically revisiting whether any additional controls are necessary for tribufos as a toxic air contaminant (Food and Agricultural Code section 14024).

cc: Tobi Jones, Assistant Director  
Chuck Andrews, Branch Chief  
Gary Patterson, Branch Chief
