

# Educators! Keep Pesticides Out of Your Classroom!

Instead, you can prevent  
a pest invasion:

1 Keep surfaces clean and dry

2 Use soapy water  
to clean up ant trails

3 Store food in  
tight-fitting containers

4 Reduce clutter, like  
cardboard boxes and old files

5 Make sure trash cans are  
emptied at the end of each day

If you notice evidence of pests, like an ant trail, notify your  
integrated pest management (IPM) coordinator:

name and phone number

California Department  
of Pesticide Regulation  
[www.cdpr.ca.gov](http://www.cdpr.ca.gov)

**Remember: sanitation is the key  
to eliminating pests.**
