

Application specific school and child day-care notification

Information contained in the notices will include, among other things:

- ✓ The name of each pesticide to be used, the active ingredient, and EPA Registration Number.
- ✓ The number of acres being treated, the location, the application method, and the anticipated date and time of application. Also, a map showing the location.
- ✓ Contact information for the property operator and the County Agricultural Commissioner.
- ✓ National Pesticide Information Center website (where a person can get more pesticide information).
