California Notice 2016-09

**NOTICE OF INITIATION OF ADDENDUM  
TO RISK CHARACTERIZATION DOCUMENT  
FOR THE ACTIVE INGREDIENT  
CARBARYL**

The Department of Pesticide Regulation (DPR) is initiating an addendum to the June 2014 Risk Characterization Document (RCD) for carbaryl. In the June 2014 RCD, available at <<http://www.cdpr.ca.gov/docs/risk/rcd.htm>>, DPR addresses human health risks to workers and the public from carbaryl exposure scenarios. In the addendum, DPR will address the differences in cancer potency factors derived by DPR, the U.S. Environmental Protection Agency, and Health Canada Pest Management Regulatory Agency. DPR will also discuss updates to the carbaryl toxicology database, revised exposure assumptions, and critical-use scenarios that may impact potential mitigation priorities.

To view all scientific studies DPR currently has on file for carbaryl, you may search DPR's Pesticide Data Index at <<http://apps.cdpr.ca.gov/ereglib/main.cfm>>. If you have additional information or studies you believe are relevant to this RCD addendum, please submit them to DPR. Please address all submissions to:

Risk Assessment –Carbaryl
