Checklist for Label or Formulation Amendment

☐ Cover letter (strongly recommended) explaining in detail the intent of the amendment

☐ California Application to Amend Pesticide Product (Form DPR-035)

   a. Required when:

      i. Adding a crop
      ii. Adding sites or uses
      iii. Adding indoor use to the label
      iv. Adding the first agricultural use for the active ingredient
      v. Adding types of pests not on already on the label
      vi. Reducing the human hazard signal word or the precautionary statements

   b. Use of application form is also strongly recommended when making other label changes not listed above and/or formulation changes

☐ Data to support the new claims on the pesticide product label or reference to data and/or substantially similar product(s) already approved by DPR with all of the same claims (include product brand name and registration number or document number and study identification).

     For data requirements for a specific product, please refer to the DPR Desk Manual: [http://www.cdpr.ca.gov/docs/registration/manual/chapter_03.pdf](http://www.cdpr.ca.gov/docs/registration/manual/chapter_03.pdf).

☐ $100 application fee if label change requires data either submitted or referenced (e.g., the change meets any of the six criteria (i.-vi.) listed above) (payable to: Department of Pesticide Regulation).
☐ Six (6) copies of the proposed Final Printed Labels or Printer's Proof Labels that represents an accurate depiction of the marketplace label.

   a. Text format labels will be accepted for Master Labels only
   b. Six (6) copies of each label that has any differences in text (e.g., different size containers may bear different Environmental Hazards, Storage and Disposal statements, etc.)
   c. Six (6) copies of each label for different colors or scents (if applicable)

☐ Appropriate documentation supporting the label amendment e.g., the U.S. EPA stamped-accepted label with the acceptance/correspondence letter and/or a U.S. EPA Notification Submission (Form 8570-1) addressing other label changes not addressed by the U.S. EPA stamped-accepted label.

☐ For formulation changes, a copy of the revised confidential statement of formula.
