POST THROUGH DECEMBER 3, 2016

NOTICE OF PROPOSED DECISIONS TO REGISTER PESTICIDE PRODUCTS AND PUBLIC REPORTS

The Director of the Department of Pesticide Regulation (DPR) proposes to register the products listed below under Chapter 2 of Division 7 (beginning with Section 12751 of the Food and Agriculture Code) after December 3, 2016 and issues this notice and these public reports in accordance with Title 3, California Code of Regulations sections 6253 and 6254. Comments concerning these proposed decisions may be directed to the Pesticide Registration Branch, Department of Pesticide Regulation, P.O. Box 4015, Sacramento, California 95812-4015 until the above date. Contacts regarding this notice should be made to the Pesticide Registration Branch at (916) 445-4400.

Description of the Action – Label Amendments

Tracking Number – (EPA Registration Number)

Applicant / Brand Name

269714 - (83923 - 2)

ENSYSTEX IV, INC.

BITHOR SC

USE: INSECTICIDE - FOR THE CONTROL OF VARIOUS INSECTS SUCH AS ARMYWORMS, BILLBUGS, AND CHINCH BUGS IN VARIOUS SITES SUCH AS PLAYGROUNDS, PARKS, AND ATHLETIC FIELDS

TYPE: SECTION 3 LABEL AMENDMENT - TO ADD CONTROL OF ANTS AND BEDBUGS INSIDE STRUCTURES, AND TO REVISE THE PRECAUTIONARY AND FIRST AID STATEMENTS

ACTIVE INGREDIENT(S):

BIFENTHRIN

IMIDACLOPRID

CAS NUMBER(S): 82657-04-3, 105827-78-9

Notice of Proposed Decisions to Register (Continued)

Page 2

277633 - (47371 - 180)

H & S CHEMICALS DIVISION

FORMULATION HS-1210 DISINFECTANT/SANITIZER (14.08%)

USE: DISINFECTANT - FOR THE CONTROL OF VARIOUS ORGANISMS SUCH AS STAPHYLOCOCCUS AUREUS, SALMONELLA CHOLERAESUIS, AND PSEUDOMONAS AERUGINOSA IN SITES SUCH AS BARS, HOTELS, AND SCHOOLS

TYPE: SECTION 3 LABEL AMENDMENT - TO REVISE THE NOMENCLATURE FOR SHIGELLA SONNEI AND VIBRIO CHOLERAEE

ACTIVE INGREDIENT(S):

ALKYL (50%C14, 40%C12, 10%C16) DIMETHYLBENZYL AMMONIUM CHLORIDE
DIDECYL DIMETHYL AMMONIUM CHLORIDE

CAS NUMBER(S): 63449-41-2, 126851-24-9, 154765-32-9, 7173-51-5

277718 - (47371 - 131)

H & S CHEMICALS DIVISION

FORMULATION HWS-64

USE: ANTIMICROBIAL, BACTERICIDE, DISINFECTANT - FOR THE CONTROL OF VARIOUS ORGANISMS SUCH AS PSEUDOMONAS AERUGINOSA, STAPHYLOCOCCUS AUREUS, AND SALMONELLA ENTERICA ON HARD NON-POROUS SURFACES IN SITES SUCH AS DENTAL OFFICES, BARS, AND CORRECTIONAL FACILITIES

TYPE: SECTION 3 LABEL AMENDMENT - TO ADD USE IN TATTOO PARLORS AND SPAS, TO ADD AN EFFICACY CLAIM AGAINST ACINEOBACTER BAUMANNII, AND TO REVISE THE DISINFECTION DIRECTIONS

ACTIVE INGREDIENT(S):

ALKYL (50%C14, 40%C12, 10%C16) DIMETHYLBENZYL AMMONIUM CHLORIDE
DIDECYL DIMETHYL AMMONIUM CHLORIDE

CAS NUMBER(S): 63449-41-2, 126851-24-9, 154765-32-9, 7173-51-5

275805 - (64864 - 68)

PACE INTERNATIONAL LLC

SHIELD-BRITE TBZ 99WP

USE: FUNGICIDE - FOR THE CONTROL OF VARIOUS DISEASES SUCH AS BOTRYTIS ROT, STEM END ROT, AND FUSARIUM TUBER ROT ON CROPS SUCH AS POTATOES, APPLES, AND PEARS

TYPE: SECTION 3 LABEL AMENDMENT - TO REVISE THE PERSONAL PROTECTIVE EQUIPMENT FOR FOGGING APPLICATORS, USER SAFETY REQUIREMENTS, EMERGENCY CONTACT INFORMATION, FIRST AID STATEMENT, PRECAUTIONARY STATEMENT, AND SIGNAL WORD; AND TO ADD BLUE MOLD ROT, GRAY MOLD, AND NECK ROT

ACTIVE INGREDIENT(S):

THIABENDAZOLE

CAS NUMBER(S): 148-79-8

Notice of Proposed Decisions to Register (Continued)

275378 - (34810 - 31)

WEXFORD LABS, INC.

WEX-CIDE-128

USE: ANTIMICROBIAL, BACTERICIDE, DISINFECTANT, VIRUCIDE - FOR THE CONTROL OF VARIOUS ORGANISMS SUCH AS HERPES SIMPLEX TYPES 1 AND 2, ENTEROCOCCUS FAECALIS, AND ESCHERICHIA COLI ON HARD, NONPOROUS SURFACES IN SITES SUCH AS HOSPITALS, NURSING HOMES, AND HEALTH-CARE FACILITIES

TYPE: SECTION 3 LABEL AMENDMENT - TO CHANGE THE SIGNAL WORD FROM DANGER TO CAUTION, AND TO REMOVE "CORROSIVE" FROM THE LABEL

ACTIVE INGREDIENT(S):

ORTHO-BENZYL-PARA-CHLOROPHENOL

ORTHO-PHENYLPHENOL

CAS NUMBER(S): 120-32-1 , 90-43-7

This is a proposed decision to approve amended labels for certain pesticide products already registered for use in California (project). The amended labels submitted to replace the labels for currently registered products have already been reviewed and accepted by the United States Environmental Protection Agency (U.S. EPA). By law, before these labels can be approved for placement on currently registered products in California to control use, the labels must first be reviewed and accepted by U.S. EPA. The label under which a product is registered in California is controlled by, and must be essentially the same as, the label approved by U.S. EPA. DPR cannot give its final approval for the amended labels until such labels are officially accepted by U.S. EPA.

The products listed and described above are the subject of this registration action and are currently registered in California under labels that allow each product's use only for specific pests and/or at particular types of sites, and only in the manner consistent with the label requirements and instructions. The registrants of these products have now applied to amend the labels for their respective products in California by adding additional uses or types of sites, and/or setting forth additional or different conditions or instructions for use.

Mitigation and Alternatives

DPR evaluated the new labels for their potential to create adverse environmental effects to human health, water, air, and non-target species (checklist). After review of the new labels for the above-identified registered products, DPR has determined that use of each product in a manner consistent with its new label will have no direct or indirect significant adverse environmental impact, and therefore no alternatives or mitigation measures are proposed to avoid or reduce any significant effects on the environment. Cal. Code of Regs., tit. 14, § 15252(a)(2)(B).

Notice of Proposed Decisions to Register (Continued)

Page 4

If DPR determines that the use of any of the registered products in a manner consistent with the amended label submitted for approval is anticipated to have a significant adverse environmental impact, the only alternative or mitigation to the project of accepting the amended label is to deny approval and maintain the registration of the product under the existing label. However, even if an adverse impact is identified, the registration project can be approved if the Director makes a written determination that the benefit of accepting the amended label in providing an additional pest control option outweighs the risk of a significant adverse environmental impact from allowing use of the product consistent with its requirements (overriding considerations determination). Cal. Code of Regs., tit. 3, § 6158.

In an overriding considerations determination, a discussion of the lack of feasible pest control options, including product alternatives, for one or more of the pest problems for which the product can be used under the amended label may be appropriate to support approval. However, that determination is not being made here as no significant adverse environmental impacts have been identified. Outside an overriding consideration determination, a discussion of product alternatives is irrelevant to a registration project.

If the proposed registration of these products under amended labels is denied (no project alternative), there will be no significant adverse environmental impact anticipated from the lack of additional pest control options. The benefit of accepting amended labels for these currently registered products is that such action may provide additional pest control options for specific pests or use sites allowing the selection of the optimal pest tool for each unique situation; or such action may result in new control measures or requirements on use that decrease the risk of adverse impact on human health and the environment.

†† This product is designated as a California restricted material based upon the increased hazard the active ingredient may pose to human health or the environment. Although the labels submitted for registration include mitigation measures and restrictions that significantly reduce the potential for a significant adverse environmental impact, restricted material products also require a permit to be issued by the local county agricultural commissioner before they can be applied. The local county agricultural commissioner is required to conduct an evaluation before issuing a permit for the use of restricted material products to determine if the specific use at a specific time and location will result in a significant adverse environmental impact. If the evaluation finds that there is a likelihood of a substantial adverse environmental impact, and there is a mitigation measure which will significantly reduce that impact, the permit shall be conditioned on the use of that measure. If, however, no mitigation is possible and there is a feasible alternative that will substantially reduce the environmental impact while still achieving the intended pest management purpose, the permit will be denied.

Notice of Proposed Decisions to Register (Continued)

TYPE: SECTION 3 REGISTRATION -

ACTIVE INGREDIENT(S):

DICHLORBENIL

CAS NUMBER(S): 1194-65-6

This is a proposed decision to register certain pesticide products that already have been registered by U.S. EPA or for which federal registration is pending, under the specific labels that are now submitted for registration in California (project). The products listed and described above are the subject of this registration action and contain active ingredients already found in currently registered products, but may have different combinations and/or percentages of total ingredients, and/or be for different pests and/or types of sites. By law, all of these products must first be registered under a label approved by U.S. EPA before they can be registered for use in California. The label under which the product is registered in California is controlled by, and must be essentially the same as, the label approved by U.S. EPA. DPR cannot give its final approval for registration in California until the products are officially registered by U.S. EPA.

Mitigation and Alternatives

DPR evaluated these proposed products for their potential to create adverse environmental effects to human health, water, air, and non-target species (checklist). DPR's review of this project, the registration of the above-identified products, has determined that use of each of these products in a manner consistent with its U. S. EPA-approved labeling will have no direct or indirect significant adverse environmental impact, and therefore no alternatives or mitigation measures are proposed to avoid or reduce any significant effects on the environment. Cal. Code of Regs., tit. 14, § 15252(a)(2)(B).

Notice of Proposed Decisions to Register (Continued)

Page 6

If DPR determines that the use of any product proposed for registration in a manner consistent with its U.S. EPA-approved label is anticipated to have a significant adverse environmental impact, the only alternative or mitigation to the project of registering the product under the label presented is to deny registration. However, even if an adverse impact is identified, the registration project can be approved if the Director makes a written determination that the benefit of registering the product in providing an additional pest control option outweighs the risk of a significant adverse environmental impact from its use (overriding considerations determination). Cal. Code of Regs., tit. 3, §6158.

In an overriding considerations determination, a discussion of the lack of feasible pest control options, including product alternatives, for one or more of the pest problems targeted by a particular product, may be appropriate to support registration. However, that determination is not being made here as no significant adverse environmental impacts have been identified. Outside an overriding consideration determination, a discussion of product alternatives is irrelevant to a registration project.

If the proposed registration of any of these products is denied (no project alternative), there will be no significant adverse environmental impact anticipated from the lack of additional pest control options. The benefit of registering these products is that they provide additional pest control options for each specific proposed use, allowing the selection of the optimal pest tool for each unique situation.

†† This product is designated as a California restricted material based upon the increased hazard the active ingredient may pose to human health or the environment. Although the labels submitted for registration include mitigation measures and restrictions that significantly reduce the potential for a significant adverse environmental impact, restricted material products also require a permit to be issued by the local county agricultural commissioner before they can be applied. The local county agricultural commissioner is required to conduct an evaluation before issuing a permit for the use of restricted material products to determine if the specific use at a specific time and location will result in a significant adverse environmental impact. If the evaluation finds that there is a likelihood of a substantial adverse environmental impact, and there is a mitigation measure which will significantly reduce that impact, the permit shall be conditioned on the use of that measure. If, however, no mitigation is possible and there is a feasible alternative that will substantially reduce the environmental impact while still achieving the intended pest management purpose, the permit will be denied.

PRECISION LABORATORIES, LLC

GUNDOWN MAX

USE: ADJUVANT - FOR USE AS AN ADJUVANT

TYPE: CALIFORNIA ONLY LABEL AMENDMENT - TO REVISE THE
PRECAUTIONARY STATEMENTS

This is a proposed decision to register certain products defined by California law as being a pesticide requiring California registration, but are not considered to be pesticides under federal law or required to be registered with U.S. EPA (project). The products listed above are the subject of this registration action and either meet the definition of a spray adjuvant as defined in Food & Agricultural Code section 12758; meet the definition of a structural pest control device as defined in Food & Agricultural Code section 15300; or have been designated minimum risk pesticides that do not require federal registration under Title 7, United States Code, section 136w(b)(2) and 40 Code of Federal Regulations, section 152.25(f). The registrants of these products have now applied to register these products in California.

Mitigation and Alternatives

DPR evaluated these proposed products for their potential to create adverse environmental effects to human health, water, air, and non-target species (checklist). DPR's review of this project has determined that use of these products in a manner that does not conflict with their labels will have no direct or indirect significant adverse environmental impact and therefore no alternatives or mitigation measures are proposed to avoid or reduce any significant effects on the environment. Cal. Code of Regs., tit. 14, § 15252(a)(2)(B).

If DPR determines that the use of any product proposed for registration in a manner consistent with its label is anticipated to have a significant adverse environmental impact, the only alternative or mitigation to the project of registering the product under the label presented is to deny registration. However, even if an adverse impact is identified, the registration project can be approved if the Director makes a written determination that the benefit of registering the product in providing an additional pest control option outweighs the risk of a significant adverse environmental impact from its use (overriding considerations determination). Cal. Code of Regs., tit. 3, § 6158.

In an overriding considerations determination, a discussion of the lack of feasible pest control options, including product alternatives, for one or more of the pest problems targeted by a particular product, may be appropriate to support registration. However, that determination is not being made here as no significant adverse environmental impacts have been identified. Outside an overriding consideration determination, a discussion of product alternatives is irrelevant to a registration project.

Notice of Proposed Decisions to Register (Continued)

Page 8

If the proposed registration of any of these products is denied (no project alternative), there will be no significant adverse environmental impact anticipated from the lack of additional pest control options. The benefit of registering these products is that they provide additional pest control options for each specific proposed use, allowing the selection of the optimal pest tool for each unique situation.

Continuous Evaluation

All products proposed for registration here are subject a continuous evaluation under Food and Agricultural Code section 12824 to identify and evaluate any potential significant adverse environmental impact that may be indicated after the initial registration. Following the process outlined in Title 3, California Code of Regulations sections 6220 through 6224, action may be taken to cancel the registration under Food and Agricultural Code section 12825.

POST THROUGH DECEMBER 3, 2016

**NOTICE OF FINAL DECISIONS TO REGISTER PESTICIDE PRODUCTS
AND WRITTEN EVALUATION**

Pursuant to Title 3, California Code of Regulations section 6255, the Director of the Department of Pesticide Regulation (DPR), files this Notice of Final Decisions to Register Pesticide Products with the Secretary of the Resources Agency for posting. For products conditionally registered pending the submission of specific data, the Director found that the use of the products during the time period(s) while the data are being developed is not expected to cause any significant adverse effect on the environment; there is a clear need for the products in California while the data are being developed; and that the benefits of using the products outweigh risks to human health and the environment. Conditional registration cannot be granted unless all the data required by Title 3, California Code of Regulations section 6200 and the other requirements of that section are satisfied. This notice must remain posted for a period of 30 days for public inspection. Contacts regarding this notice should be made to the Department of Pesticide Regulation's Pesticide Registration Branch at (916) 445-4400.
