WHS 95-8

TO: COUNTY AGRICULTURAL COMMISSIONERS
SUBJECT: RESTRICTED MATERIALS LIST REVISION

The regulation action to remove outdated sections of Title 3, California Code of Regulations and reorganize the restricted materials list has been approved by the Office of Administrative Law. These changes will be fully effective on July 1, 1995. Most of the changes may be thought of as housekeeping to repeal old provisions. Please refer to letter WHS 94-10 for complete information on this action.

The one significant change is the adjustment of the herbicide exceptions to reflect the growing use of ready-to-use formulations. The exemption for high concentrate (above 15% active ingredient) is now one quart, raised from one pint. A new exemption for low concentrate (15% or less active ingredient) is set at one gallon. The exemption for ready-to-use (used without further mixing or dilution) has no container size restrictions.

Enclosed is a list of the restricted materials as they will be after July 1, 1995. It is set up in a format suitable for posting or use as a hand out. The active ingredients have been highlighted for clarity.

Sincerely,

A handwritten signature in blue ink, appearing to read "John Donahue" with a stylized flourish at the end.
