

June 28, 1996

96-7

TO: COUNTY AGRICULTURAL COMMISSIONERS

SUBJECT: DR. MIKE O'MALLEY

Dr. Mike O'Malley, Senior Medical Coordinator with the Worker Health and Safety Branch, has accepted a position at the University of California, Davis Employee Health Services.

Although Dr. O'Malley will start his new duties around July 1, 1996, he will still be here in the Branch on Thursdays and available via beeper to take emergency calls. As a second phase to this interim period, after Dr. O'Malley terminates his State employment, we will have a contract with the University to have medical consultation services provided until a permanent replacement is selected.

During this interim time, if you desire to contact Dr. O'Malley on Thursdays, use the usual Branch telephone number, (916) 445-4222. If there is an emergency in which you need Dr. O'Malley's assistance, contact the Worker Health and Safety Branch and we will have Dr. O'Malley contact you, or the referral.

As you all will agree, Dr. O'Malley has provided valuable pesticide medical consultation to the Department of Pesticide Regulation, the industry, and the county agricultural commissioners. He will be greatly missed, and I ask your cooperation during this transition period.

Sincerely,

[Original signed by John M. Donahue]

John M. Donahue, Branch Chief
Worker Health and Safety Branch
(916) 445-4222
