HSM-92003 (# assigned after
original issuance of memo)

From : **Department of Pesticide Regulation** -Tian Thongsinthusak, Staff Toxicologist
Worker Health and Safety Branch

Subject: PRODUCT NAME: Omite 3 0W
ACTIVE INGREDIENT: Propargite
COMPANY NAME: Uniroyal Chemical Company, Inc.
I.D.NUMBER: 114871-E (One of two memos)
DOCUMENT NUMBER 259-094,259-095
EPA REGISTRATION NUMBER: 400-0
TITLE: Dermal Absorption of Ornite in Rats. (Doc. No. 259-094)
Dermal Absorption of Omite by Male Sprague-Dawley Rats. (Doc. No. 259-095)

Dermal absorption data reported in document numbers 259-094 and 259-095 are identical to that in document number 259-090 (I.D. Number 114378-ER). The latter was previously reviewed in the attached memo of January 13, 1989. Dermal absorption of 17% was used for estimation of absorbed dosages for workers.
