Introduction

The Department of Pesticide Regulation (DPR) is considering revising some of its current inspection forms. Some of the areas already identified for revision are to facilitate the recording of information for entry into DPR databases; to update changes in requirements, specifically methyl bromide and structural pest control; and to update the current Notice of Violation form.

Purpose

DPR plans to develop draft forms for review and approval by the Pesticide Regulatory Affairs Committee at the Winter Conference in November 2001. DPR is seeking guidance from you. Please provide your staff with a copy of these forms and ask them to provide suggestions for revisions.
