1,3-Dichloropropene
Regulation Development

Pesticide Registration and Evaluation Committee Meeting
July 20, 2018
Current Township System

Mitigates lifetime cancer risk (0.56 ppb as a 70-year average)

Effective 2017:

◦ Limits 1,3-D usage to 136,000 adjusted total pounds per township per year

◦ Prohibits December applications
New Mitigation Measures in Regulations

Mitigation for potential cancer risks to bystanders from use of 1,3-D will be detailed in regulations

Formal rulemaking will begin in May 2019

Current system for 1,3-D will remain in place until regulations are formally adopted
