Printed on recycled paper, 100% post-consumer--processed chlorine-free.

A Department of the California Environmental Protection Agency

Location: Counties of Lassen, Modoc, and Siskiyou.

Crop/Site/Commodity: Alfalfa, Pastures, Rangeland, and Non-Crop Areas (utility rights-of-ways, rights-of-ways, uncultivated non-ag areas, & ditch banks/ areas around ditches (Do not apply to water)).

Target Pest/Problem: Belding's Ground Squirrel

Dosage: Use 1.14 ounces of product per 10 pounds of cabbage. **Do not apply more than 20 pounds of bait per acre per year.**

To prepare treated bait: Cut cabbage into 2 to 6 inch lengths, at least ½ inch wide. Mix 10 pounds of cut cabbage with 1 to 2 fluid ounces of vegetable oil. Next add 1.14 ounces of Zinc Phosphide Concentrate to mixture and blend thoroughly by manually stirring or by use of a mechanical tumbling type mixer. Continue mixing until cabbage, oil, and concentrate are evenly mixed. Use an implement to mix cabbage, oil and zinc phosphide concentrate, **Do Not Use Your Hands.**

Method of Application: Spot Treatment by Ground Application Only

Frequency/Timing of Application: Apply only from January through May.

Restricted Entry Interval (REI): NA

Preharvest Interval (PHI): 30 days

Specific Use Restrictions:

1. Only spot baiting of active infested area by ground application only.
2. Do not broadcast treated cabbage.
3. Do not bait if non-target birds/animals are feeding, nesting, etc. in the area to be treated.
4. Do not apply in rain or on snow.
5. Do not apply in urban areas.
6. Do not allow domestic animals to graze fields treated within the last 60 days.
7. Do not apply by air.
8. Do not allow hunting in treated fields during application period.
9. Fields to be treated and treated fields must be monitored daily for non-target species.
10. When possible, properly dispose of dead rodents.
11. If migratory birds are present, hazing must be accomplished before and after applications to prevent non-target exposure.
12. Collect and bury any spilled bait, unused prepared bait, and uneaten bait. Gloves must be worn per the Personal Protective Equipment (PPE) statement on the label for Zinc Phosphide Concentrate (EPA Reg. No. 56228-6).
13. Apply when daytime temperatures are above freezing.

14. Any dead animals found in the treated areas must be immediately reported to the local county Agricultural Commissioner's office.

Valid until withdrawn, suspended or cancelled by the United States Environmental Protection Agency (USEPA), the manufacturer, the 24(c) registrant, or the Department of Pesticide Regulation, or expires.

This product is both Federally-Restricted and California-Restricted.

A restricted materials permit must be obtained from the county agricultural commissioner prior to this use. This does not constitute a recommendation of the Department of Pesticide Regulation and will not prevent quarantine action if illegal residues are found on or in the crop.

To the extent consistent with applicable law, neither the Department nor the county agricultural commissioner, makes any warranty of merchantability, fitness of purpose, or otherwise, expressed or implied, concerning the use of a pesticide in accordance with these provisions. The user and/or grower acknowledge the preceding disclaimer.

Do not use in mixture with other pesticides unless provided for in the labeling. Trial on a small area to check out unanticipated problems is suggested.
