

## DPR's 2<sup>nd</sup> IPM Research Symposium

Since 2013 the Department of Pesticide Regulation (DPR) Pest Management Research Grant Program has been providing funds for research projects that develop Integrated Pest Management (IPM) in both agricultural and urban situations. To date, DPR has awarded 6.3 million dollars to fund 27 projects. Over the same time period, more than 2 million dollars has been awarded for research contracts to explore facets of IPM of special interest to DPR. Sharing the outcomes of this research is integral to the mission of DPR, part of which is to “foster reduced-risk pest management”.

To that end, DPR is hosting the 2nd Integrated Pest Management Research Symposium to showcase DPR funded research projects that have recently been completed, or are nearing completion.

This event will take place on March 26, 2019, from 9:30 to 3:15.

Sacramento State University  
Modoc Hall, Willow Suites 1 & 2  
3020 State University Dr.  
Sacramento, CA.

Lunch will be provided and parking passes will be provided at the venue.

4 hours of CE credit will be available.

Registration is free, [here](#), or link below. Seating is limited so register early. Registration will close on March 21 (unless capacity is met sooner).

The agenda is available on the registration page. Any updates to the agenda will be posted there.

Hope to see you there!
