

California Notice 2018-25

UPDATE ON THE STATUS OF
HUMAN HEALTH RISK ASSESSMENT
FOR THE ACTIVE INGREDIENT
METHOMYL

In November 2015, the Department of Pesticide Regulation (DPR) issued a draft risk characterization document (RCD) for the pesticide active ingredient methomyl. The draft RCD was peer-reviewed by the Office of Environmental Health Hazard Assessment and the U.S. Environmental Protection Agency and made publicly available on DPR’s Web site.

DPR is finalizing its responses to comments received on the draft RCD and using the most current methodologies to determine if any updates to the exposure and risk estimates in the 2015 RCD are necessary.

If you have information or data that you believe are relevant to this update, please submit them to DPR by March 1, 2019. Please address all submissions to:

Risk Assessment – Methomyl
Attn: Risk Assessment Coordinator
Pesticide Registration Branch
Department of Pesticide Regulation
1001 I Street, P.O. Box 4015
Sacramento, CA 95812-4015

Please address all questions and comments regarding this notice to Ms. Kara James, Environmental Scientist, at 916-324-3523 or by e-mail to <Kara.James@cdpr.ca.gov>.
