

Commodity Codes by Number for Permit/Pesticide Use Report (PUR) Programs

Table Column Definitions

COMMODITY NUMBER: Code from a list established by USEPA and modified for use by DPR.

QUALIFIER CODE: Code number associated with qualifier.

COMMODITY NAME: QUALIFIER NAME: The name of the commodity or site (i.e. strawberries, wine grapes, tomatoes, etc.) followed by a qualifier name when applicable.

NEW or NEW NAME: Indicates what commodity codes or names are new as of the last update.

Universal Qualifiers

04 can be used with any commodity to denote "grown for seed"

07 can be used to denote a "seedless" variety

20 can be used with any commodity to denote an application in a state park

60 can be used with any commodity to denote "grown organically"

89 can be used with any commodity to denote "grown for processing"
