STANDARD STRUCTURAL FUMIGATION LOG: INTERIM ADDITIONAL SITE-SPECIFIC REQUIREMENTS

INSTRUCTIONS:

To ensure a safe and effective fumigation, beginning in 2025 sulfuryl fluoride (SF) labeling requires a site-specific Structural Fumigation Log for each site. SF labeling allows that other documents prepared for, or used, during the fumigation can be used as documentation to meet these requirements. To fulfil the Site-Specific Structural Fumigation Log requirements on the revised labels², this interim form, or an industry-developed equivalent form, may be completed and attached to a Standard Structural Fumigation Log¹, 43M-47 (Rev. 06/2023) <https://www.pestboard.ca.gov/forms/43m-47.pdf>

2. FUMIGANT INTRODUCTION:

a. Dosing Calculations:

iii. Under seal type: _____

b. Introduction of chloropicrin and SF:

i. Printed name of the certified applicator responsible for introduction of chloropicrin and SF:

ii. Printed name(s) of second trained person(s) and certified applicator(s) assisting with the introduction of chloropicrin and SF:

iii. Number of chloropicrin introduction sites: _____

3. AERATION:

a. Printed name of the certified applicator responsible for initiating aeration:

b. Printed name(s) of certified applicator(s) and second trained person(s) assisting with initiating aeration:

4. FINAL CLEARANCE TESTING:

a. Printed name of the certified applicator responsible for conducting final clearance testing:

b. Printed name(s) of certified applicator(s) assisting with final clearance testing:

5. EMERGENCY RESPONSE INFORMATION:

Get exposed person to fresh air. Call 911 or an ambulance. Keep exposed person warm and at rest. Make sure person can breathe freely. If breathing has stopped, give artificial respiration. Do not put anything in the mouth of an unconscious person.

1. Recordkeeping retention requirements required under 16 CCR section 1970 for the Standard Structural Fumigation Log (Form 43M-47 (Rev. 06/2023)) do not apply to this interim form.

2. Sections on this form are numbered to correlate to the Site-Specific Structural Fumigation Log requirements listed on the SF labels.
