Use Trends of Pesticides on the 'A' Part of DPR's Groundwater Protection List: Pounds Applied

Text files of data are available. The reported pounds of chemicals used that are groundwater contaminants. Groundwater contaminants are defined as pesticides that have the potential to pollute groundwater based on their chemical properties and labeled use. The groundwater contaminant category included all chemicals listed in the California Code of Regulations, Title 3, Division 6, Chapter 4, Subchapter 1, Article 1, Section 6800(a). Values greater than one are rounded. For more information, see Pesticide Use Annual Report Data Access, References, and Definitions Guide.
