PESTICIDE EXPOSURE:
Worker Rights

Know Your Rights

- Handlers have the right to clean, well-fitting PPE
- Workers have the right to receive medical care free of charge
- Workers have the right to know what pesticides you are working with or around, and training in a language and style you understand

You have the right to report unsafe pesticide work conditions and potential pesticide use violations to your County Agricultural Commissioner (CAC) office without being punished or fired.

Your Boss Must

- Get you to the doctor right away (don't drive yourself)
- Pay for the doctor
- Tell you where to find training records, pesticide labels, and Safety Data Sheets (SDS)
- Give the Safety Data Sheet (SDS) to medical personnel treating you
- Post the location of a doctor
- Tell medical personnel how and why you were exposed
